

BUILT TO SAVE YOUR BUDGET AND OUR PLANET

Color: Latte **Width:** 5.5"

This product combines sustainability with practicality, transforming high-end production remnants into an affordable, eco-friendly flooring option. By downcycling premium wood offcuts from larger planks, we give each piece new life—keeping costs low and minimizing waste.

COMPOSITION

Structure consists of a European Multilayer Plywood and European White Oak, both elements glued with polyvinyl acetate adhesives,

GRADE

Character solid knots up to 3" (70mm) permitted. Open knots with fill less than 2" (50mm). Repaired cracks or splits within the planks are permitted. No filled cracks/splits on the ends of the planks. Natural color variation is to be expected. Sapwood may be present and allowed if the color blends into the plank. No bleached sapwood allowed.

TECHNICAL DATA

Length	1.6ft - 7.2ft Random Lengths (4ft average)	Finished	Bona® Ultra Matt Lacquer
Thickness	9/16"	Impact Resistance	Ø medium of deep 8.59 mm
Construction	Engineered	Dimensional Stability (EN-1910):	Movemen ≤ 0.29%
Top Layer	3 mm	Thermal conductivity (UNE-92-202)	0.14W/moK
Species	European white oak		
Core Layer	European multilayer plywood		
Applications	Residential and Commercial		

DIMENSIONS TOLERANCES (EN 13647)

Length	Nominal ± 0.1%
Width	Nominal ± 0.2%
Cupping	0.2% of nominal width
Banana	0.1% nominal length
